# DHS Grant Cycle

# Basic Grant Program Business Cycle

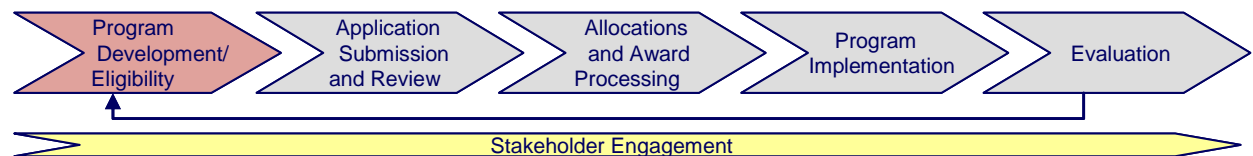

- Five key phases of grant implementation
- Findings from program implementation and evaluation drive future program development
- Internal and external stakeholder engagement occurs throughout cycle

# HSGP Business Cycle

- **Program Development and Eligibility Determinations**

- Solicit input from federal, state, local, and private partners on strategic priorities and allowable activities to support transparency
- Conduct risk analysis to determine eligible candidates for risk-based programs
  - Evaluate potential risk of terrorism to people, critical infrastructure, and economic security to estimate the relative risk of terrorism faced by a given area
  - Consider inputs such as Intelligence Community assessments of threat; potentially affected populations (e.g., Population size/density, passengers); economic impact of an attack; proximity to nationally critical infrastructure

FEMA

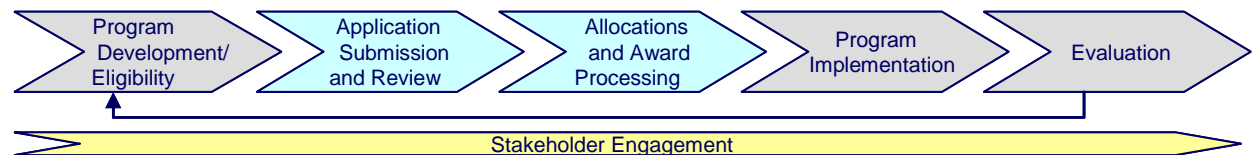

# HSGP Business Cycle (cont'd)

- **Application Submission and Review**

- States and Urban Areas develop and submit Investment Justifications, which are evaluated based on the anticipated effectiveness of an applicant's plan to address preparedness priorities
- Approximately 130 state and local homeland security experts participate in application review; each panel structured to balance geographic factors and subject matter expertise
- Proposed Investments shared with relevant Federal partners (e.g., DNDO, I&A, OEC, FEMA, HHS) for SME feedback to applicants

- **Allocations and Award Processing**

- Combine risk and effectiveness data to determine final allocations in support of national risk management objectives
- Brief DHS leadership, HSC, OMB, congressional oversight and appropriations committees
- Award process takes approximately 30 days, with input from program staff, grant operations, budget office, legislative affairs

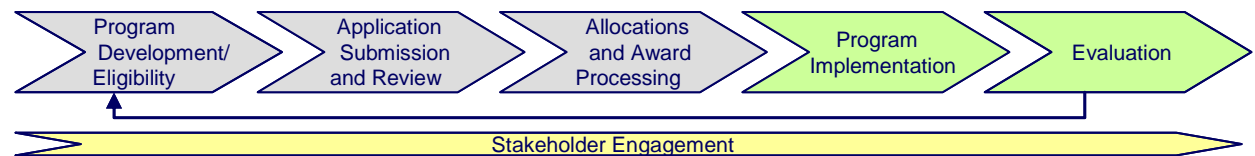

# HSGP Business Cycle (cont'd)

- **Program Implementation**

- Ongoing support and consultation with grantees and federal partners on implementation of selected investments in support of State and Urban Area Homeland Security Strategies
- Conduct strategic and programmatic monitoring to gauge progress toward strategic goals and objectives
- Grant reporting processes track project implementation and expenditures

- **Program Evaluation**

- Data and trend analysis of grant reporting and monitoring inputs
- Obtain feedback on development, application review, and allocations from federal, state, local, and private partners through formal after-action process

# Award Process & Accessing HSGP funds

# Understanding the Award Process

- **Awarded to State Administrative Agency (SAA)**

- Governor appointed
- Main point of contact and manage many of the GPD/NPD programs
- Apply for the grants
- Allocate grant funds – pass thru requirements
- Monitor sub-recipients and approve reimbursements

[http://www.ojp.usdoj.gov/odp/contact\\_state.htm](http://www.ojp.usdoj.gov/odp/contact_state.htm)

- **Prioritize needs and funding:**

- State Level:

- Utilize Senior Advisory Committee - Multi-discipline, multi-agency
- Link to National Preparedness Guidelines, National Priorities and implementation of their Homeland Security Strategy
- Incorporate priorities into the application

**FEMA**

# Understanding the Award Process

- Prioritize needs and funding:
  - Local Level
    - Depends on how the state is organized
      - Regions – Regional Coordinators/Councils, Council of Governments
      - Urban Area Working Groups
      - Jurisdictions – local emergency managers, local area coordinators, councils

<http://www.fema.gov/about/contact/statedr.shtm>

- Feed priorities to the State Advisory Council
